

The NJ Donot call LIST is the best thing that ever came along and I am so glad it was passed in our wonderful state of NJ. Please don't let the telemarketer's get there way....For years we have been harrassed in our homes it is wonderful not to be interrupted while having breakfast, lunch and dinner.....They are for the most part always rude and insisting and it is great that we aren't harrassed and hopefully it will continue because of our brief comments to you....the FCC.....Thank you....
